

Volaré

AIRWAY INDUSTRIES INC.

Take Off With The Finest

Volaré

Take off with style. A double pillar arrangement with fabric insert. That's the Volaré look. The look of high fashion. Without the usual high price. We designed Volaré for the traveler who appreciates the casual elegance of soft-sided luggage, but prefers locks in place of zippers.

Take off with quality. GranCorri vinyl is imported from Europe, where skilled leather tanners produce a material that looks like leather, wears like iron. What's more, the scuffs and scrapes of travel wipe clean with a damp cloth. The lining is 100 per cent nylon. Beautiful, washable, and practically indestructible. The locks are solid brass. Easy to open, easy to close.

Take off with comfort. The continental handle is perfectly contoured to your hand, and reinforced for extra strength. We engineered Volaré to stand up to the abuses of modern-day travel, but kept it lightweight for your carrying comfort.

Take off with everything you need. Soft GranCorri vinyl has just enough "give" to give you all the packing space you need. Metal stays keep the case open for easy packing. Inside, tie tapes and pockets help you pack, and help your clothes arrive wrinkle-free.

Volaré Two-Suiter

You'll like the versatility of two suit capacity with two extra large zipper pouches to handle everything you need for short trips. The adjustable shoulder strap is a great way to lighten the weary traveler's burden. For those who prefer the continental handle, the shoulder strap is removable. Don't have time to wait in endless luggage

lines? The Volaré Two-Suiter fits neatly under an airline seat.

Volaré Four-Suiter

Here's true four suit capacity, plus extra large zipper pouches that make this case a one piece "set" of luggage.

Airway "Add-A-Wheels"™ Kit

Want the traveling ease of roll-along luggage? Volaré cases can be converted to roll-along luggage in less than five minutes with the "Add-A-Wheels" Kit. The Kit includes four wheels, tow strap and installation key.
